

Building end user applications

- Requirements
 - Robustness
 - Robustness
 - Robustness
 - System Integration
 - UI **Design**

Building end user applications

- Robustness
 - No audio/video glitches
 - No developer tools
 - Error handling
 - No known bugs (just kidding)

Building end user applications

- System integration
 - Being a good host system citizen
 - Use system directories
 - User accounts
 - Fonts
 - Drag and drop

Building end user applications

- UI (design)
 - Graphic design
 - Interaction design
 - Accommodate for differences in
 - Command keys
 - Host menus

Building end user applications

- Packaging
 - Install/Uninstall
 - Double click application
 - Double click documents
 - .app for Squeak
 - Icons
 - App-types/Extensions

Building end user applications
