Pharo: a powerful community @ work

S. Ducasse and M. Denker

http://www.pharo.org

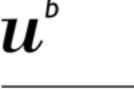

Accelerate Confidently

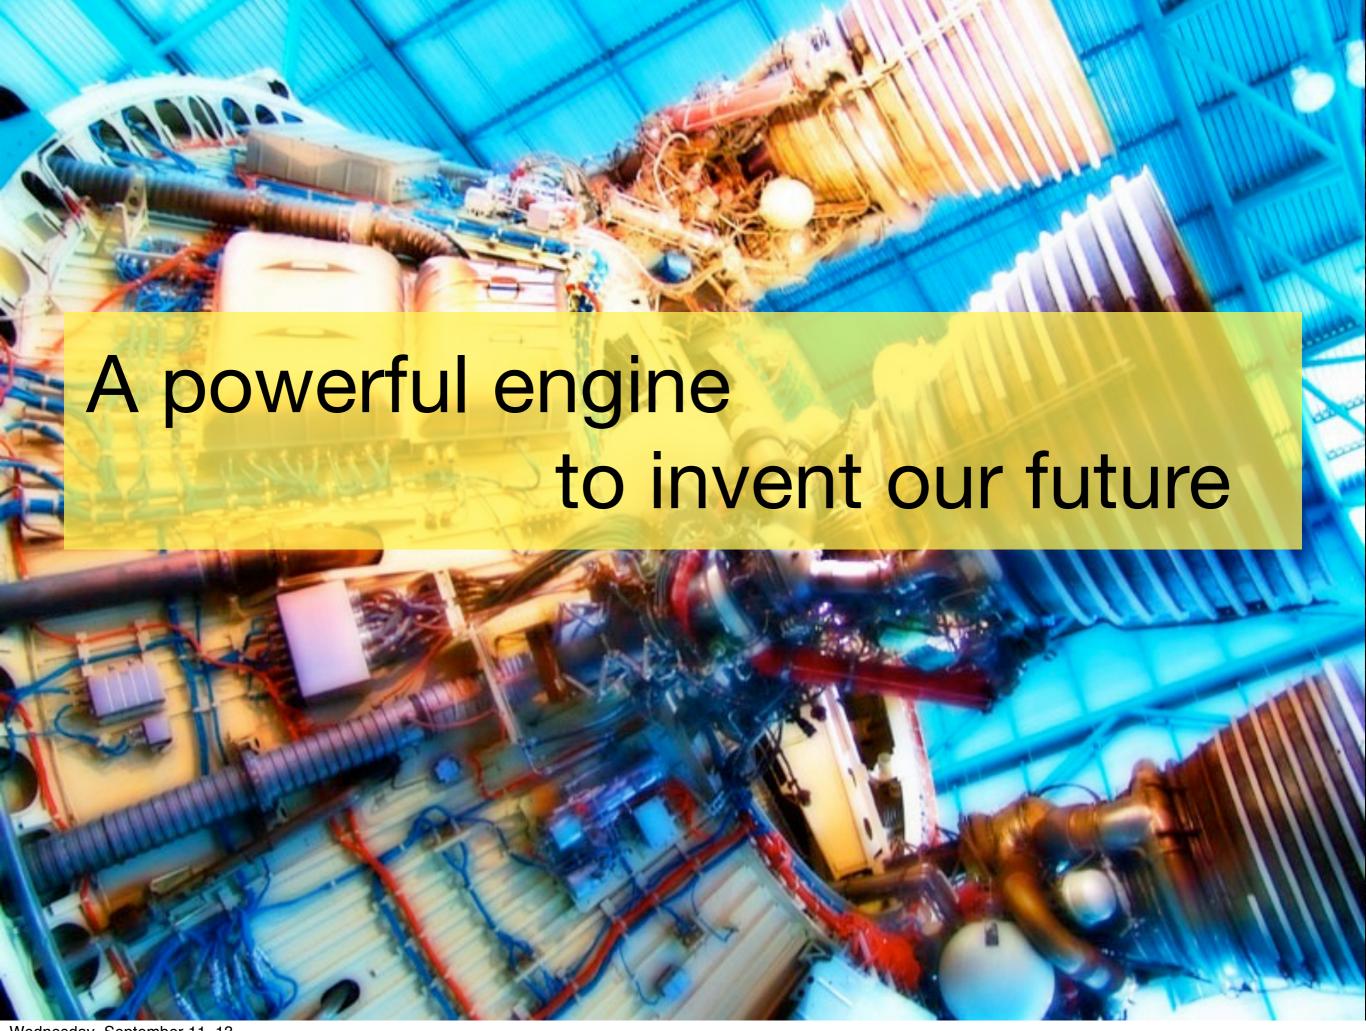

It feels like...

Our goal...

We want that **you** can make money with Pharo. We want to be able to invent solutions to existing problems.

We want a powerful innovative dynamic language where we can build our future.

Some Pharo's success stories

- Yesplan.be, netstyle.ch, romax.com, www.spesenfuchs.de,
- Cmsbox.ch, objectFusion,
- T3 Easy from beta9.be,
- moosetechnology.org, pinesoft.co.uk,
- Airflowing, synectique, miriamTech, 2denker...
- Pier, DrGeo, Seaside.st, SmalltalkHub,

We want more success stories!

An extremely important point....

Apr 2013 (593 updates)

A massive amount of improvements

Since may 2008

- Pharo 2.0 Apr 2013 (593 updates)
- Pharo 1.4 Apr 2012 (860 updates)
- Pharo 1.3 (700 updates)
- Pharo 1.2 mar 2011 (500 updates)
- Pharo 1.1 jul 2010 (410 updates)
- Pharo 1.0 oct 2009 (470 updates)

2.0: UI

- Spec: a new way to build UI (chapter under way)
- Widget enhancements. Revamp progress bar
- Layout improvements/cleanups.
- Keybindings
- New icons (famfam). "Growl" style notifications.
- Rectangle intersection improvements.

2.0: Developer tools

- Nautilus Browser: groups, hierarchy, icon navigation
- Critics Browser (to manage false positive)
- Interactive navigation (cmd+click on class/selector)
- Spotlight (shift+enter)
- Diff tools enhancements
- Unify/clean Smartcharacters and completion
- Shout themes
- Andreas's Profiler

2.0: Compiler

- RB AST
- Error Node
- the foundation for the AST interpreter in 3.0

Networking

- New version of Zinc
- Zodiac SSL

2.0: System

- SystemAnnouncer (first class events no symbol)
- RPackage (just plain real object)
- Manifest (Package meta-data)
- Extensible Command-line
- NativeBoost
- Ring Meta Model

2.0: System (2)

- Fuel instead of 'smart' ref streams
- FreeType fonts better handling (resources)
- Session-aware code
- Metacello
- FileSystem
- DateAndTime refactoring (UTC internally)

2.0: VM

- Latests cog builds
- Branding
- SSLPlugin
- FilePlugin enhancements
- SocketPlugin fixes
- Included libraries: freetype2, cairo

2.0: Cleanups

- Removal of FileDirectory
- Removal of ReferenceStream and bros

2.0: Infrastructure

- ZeroConf script (chapter)
- Continuous integration for everything
 - pharo/core
 - pharo/contributions (ask if you need)
- SmalltalkHub

Vision Document around 2.0

- https://gforge.inria.fr/frs/download.php/30434/ PharoVision.pdf
- 3.1 Towards a small kernel [we have it now we should think about migration]
- 3.2 Towards a verified package catalog [On the way]
- 4.1 A Robust and Extensible System Events [Beta and should be in 3.0]
- 4.2 Rewrite of Filesystem/Streams [DONE for Files]
- 4.3 Announcements and Ephemerons [Annoucements Done. More Enh for 3.0]

- 4.4 UI Canvas for Zoomable Interface [Waiting for TextModel and 3.0]
- 4.5 Bootstrap of the Core [Done should be integrated in 3.0]
- 4.6 Fully parametrized compiler tool chain [Start with Opal in 3.0]
- 4.7 Packages as real objects [in 2.0 and will improve in 3.0]
- 4.8 Package Meta-Data [Done]
- 4.9 Less Model Clutter and Duplication [Started in 2.0 will be accentuated in 3.0]

- 4.10 Building and Reusing UI Logic [First cut in 2.0 UIPainter for 3.0]
- 4.11 New Network Layer [Nothing]
- 4.12 Serializers [Done]
- 4.13 SystemChangeNotifier replacement [Done]
- 4.14 Cleaning Morphic [To be continued in 3.0]
- 5.2 VMs identification and regression testing [On the way]
- 5.3 One Unified FFI framework [before June]

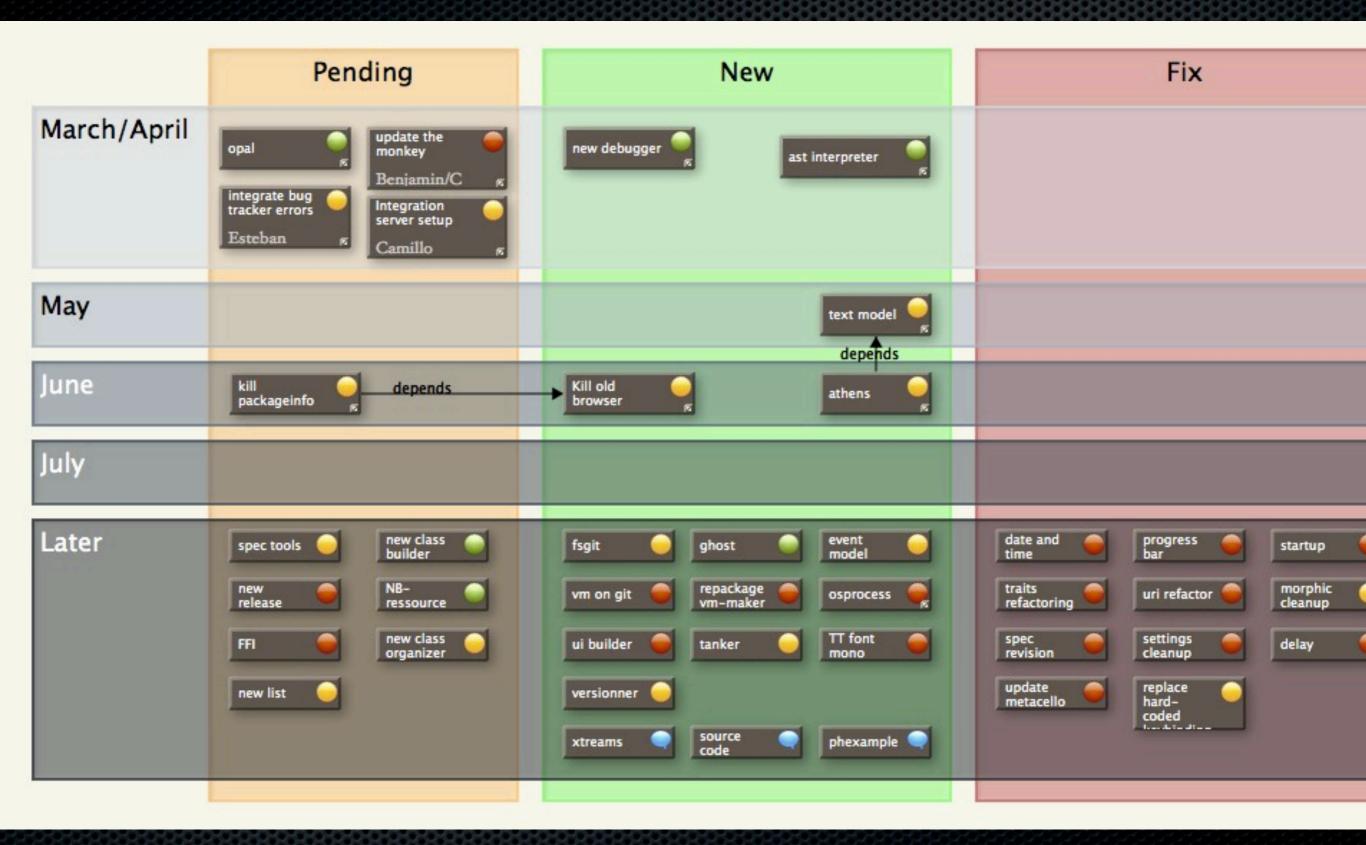

We will improve the complete system!

Of course not everything is perfect:)

Monthly retrospective analysis to make progress

New Process

- To dynamize and stabilize a long cycle
- Chunked per month
- Retrospective analysis
- Continue to have a Summer release and an alpha

We believe in non linear growth

Community Ongoing Work

- Better widgets, UI Builder (A. Plantec, G. Chambers, B. van Ryseghem)
- Better browsers (B. van Ryseghem, C. Bruni)
- Proxy (M. Martinez-Peck)
- New compiler (J. Ressia/M. Denker/JB Arnaud/)
- Vectorial canvas (I. Stasenko)
- Better FFI (I. Stasenko, E. Lorenzano)
- Bootstrap (G. Polito/S. Ducasse/N. Bouragadi/L. Fabresse)
- Package distribution infrastructure (D. Henrichs)
- PDF generation (O. Auverlot, G. Larcheveque)
- Network (Zinc, Zodiac S. van Caekenberghe)
- Remote Smalltalk (N. Papoulias, N. Bouragadi)

I thought Pharo 2.0 was exciting and

3.0 started;)

Glimpse at 3.0

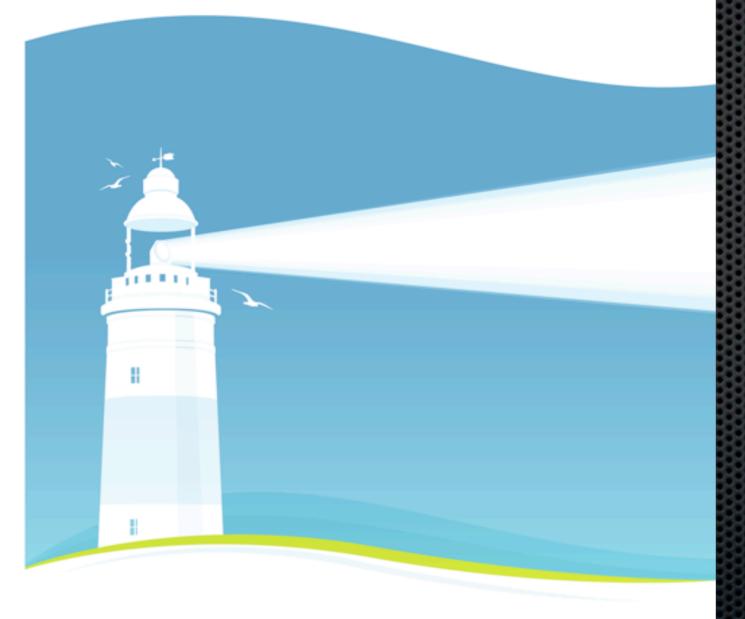

- OPAL for real
- Athens
- Integration process using metacello!
- Remove PackageInfo for real
- Many many and even more enhancements

Pharo books

- Pharo by example
 - translated to french, merci!
 - translated to spanish, gracias!
 - japanese, german started

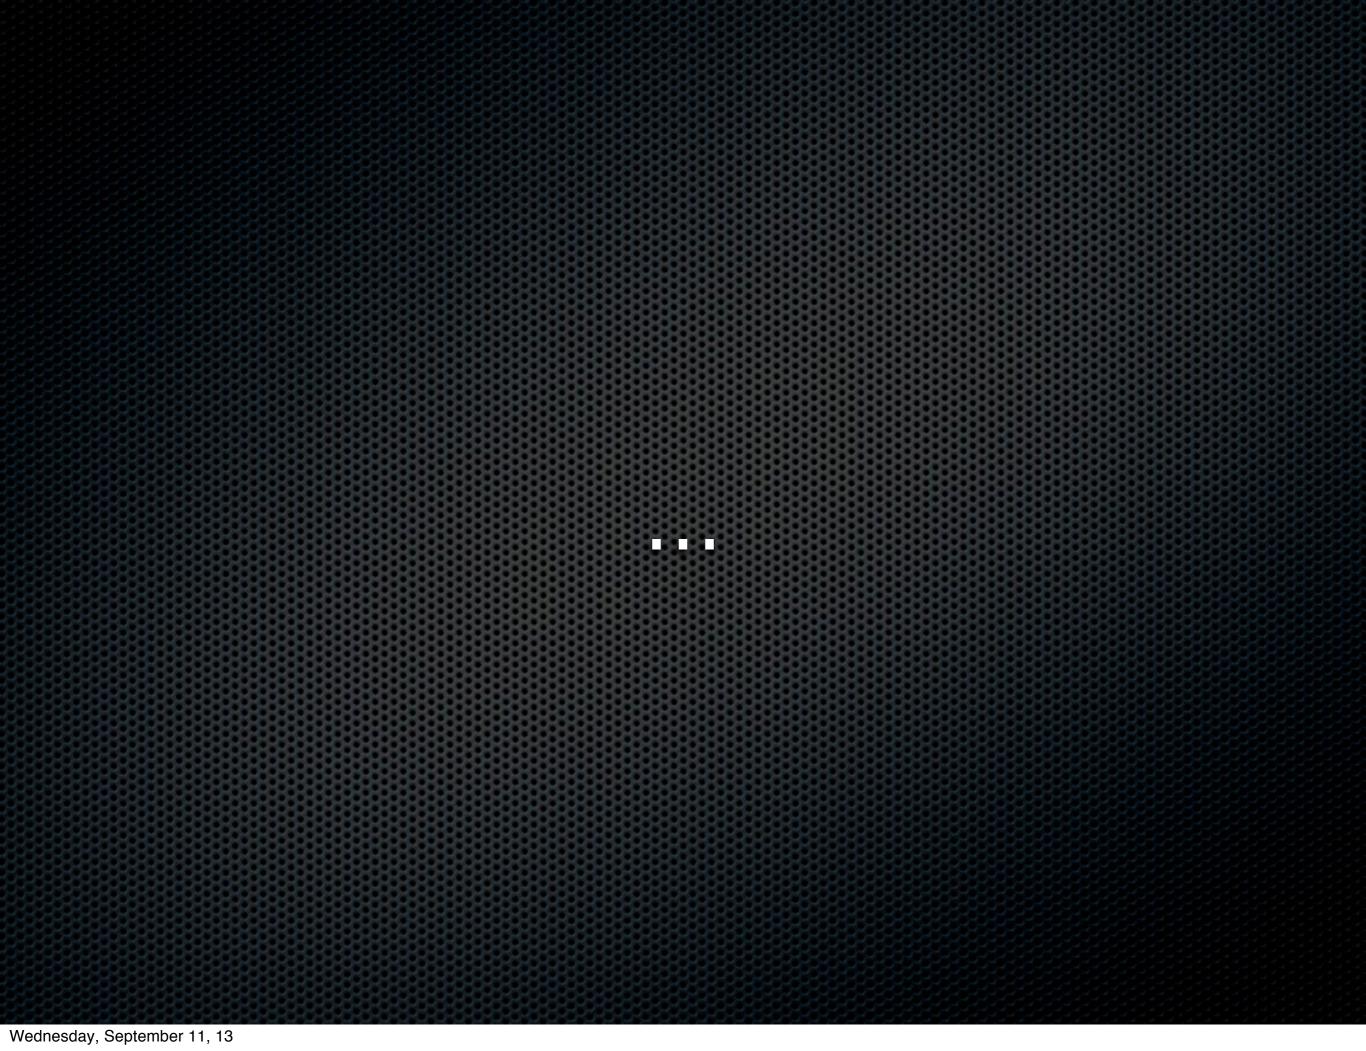

ALEXANDRE BERGEL - DAMIEN CASSOU STÉPHANE DUCASSE - JANNIK LAVAL

ESUG 2013 Edition

Other books will come...

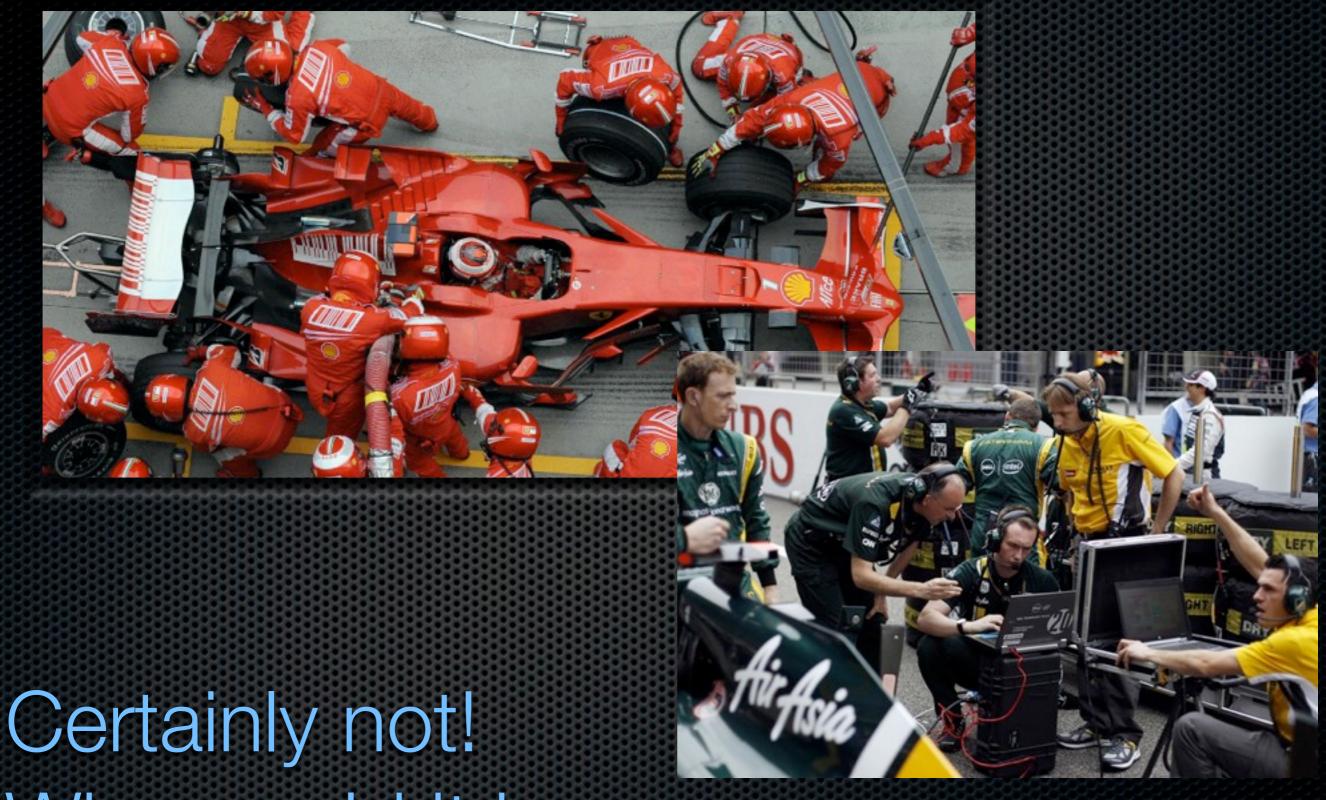

- Pharo for the Entreprise
- Fun with Pharo (aka hacking fun stuff)
 - If you want to contribute...

Let us step back a bit

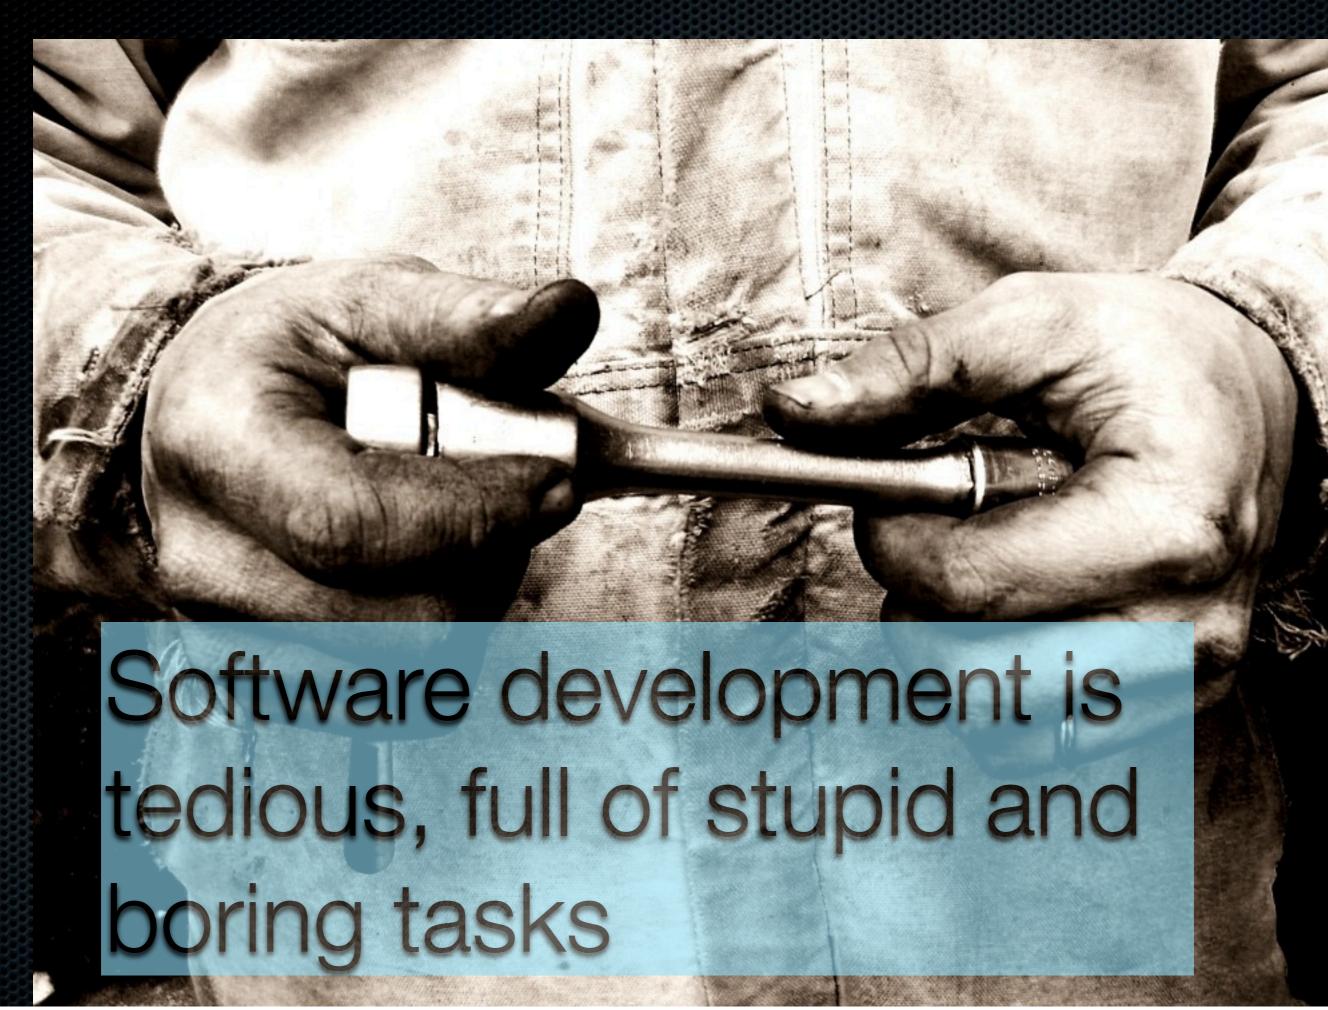

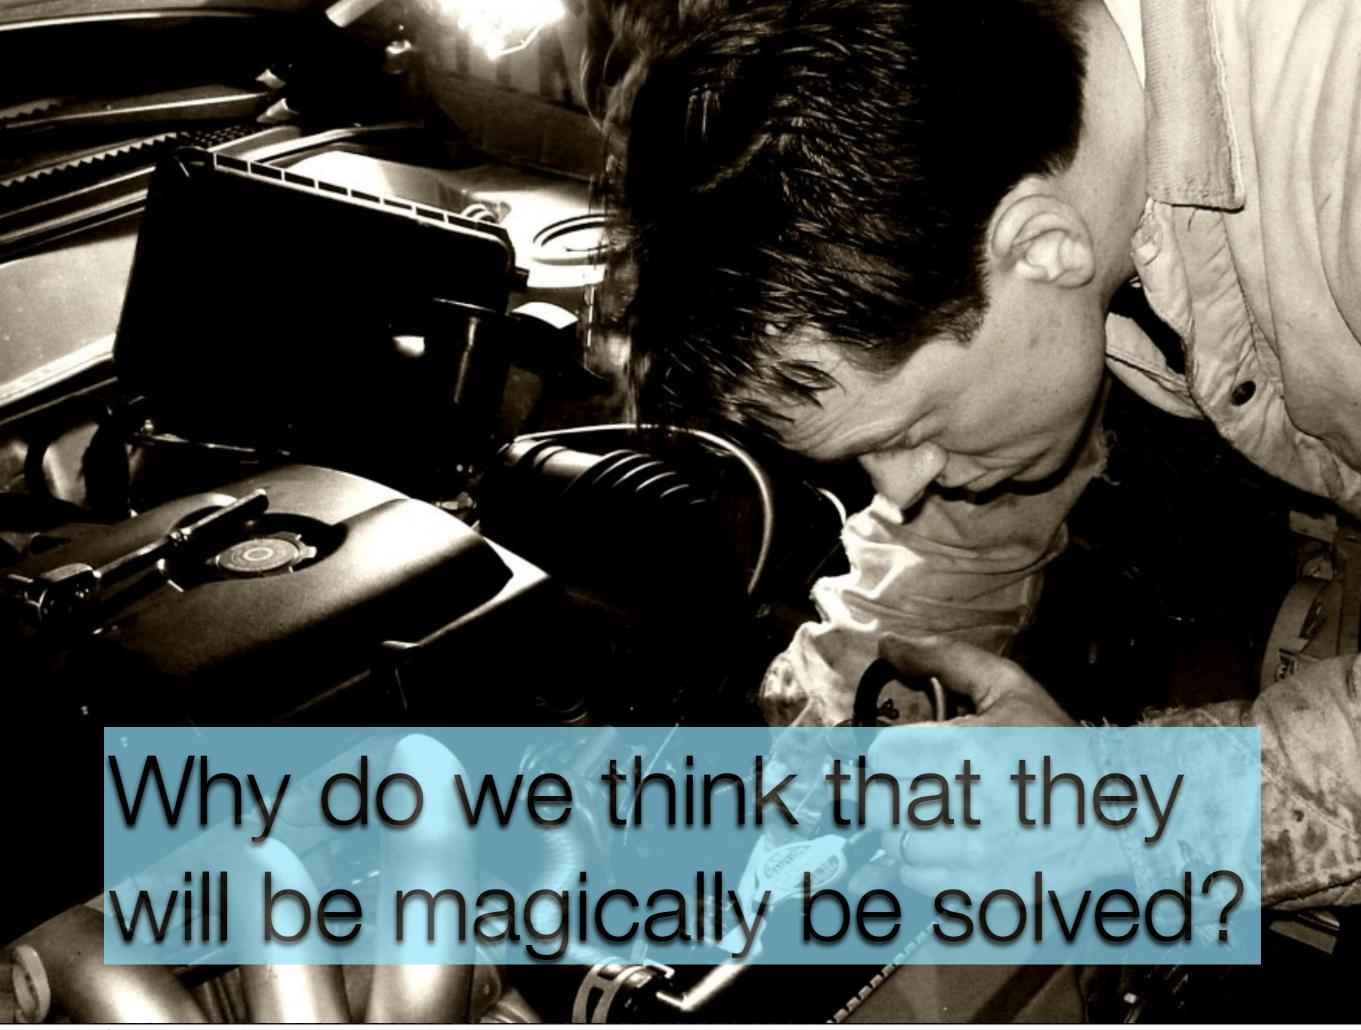

Do we expect him to be alone? Do they win by luck?

Why would it be any different for Pharo?

May be you will be able to compile your own vms?

May be or may be not

May be you will be able to get a better widget sets?

May be you will be able to get a vector graphic engine?

May be you will be able to implement event touch?

May be you will get 64 bits support?

Why do we rely on free time of smart engineers?

We built legal tools
Use them
We set them for you!

Sustaining Pharo

- How to sustain Pharo?
- How to structure the community?
- Lot of small companies can get an impact
- Lot of individual can get an impact

Pharo consortium portal

A clean, innovative, open-source, Smalltalk-inspired environment.

Pharo is a clean, innovative, open-source Smalltalk-inspired environment. Pharo's goal is to deliver a clean, innovative, free open-source Smalltalk-inspired environment. By providing a stable and small core system, excellent dev tools, and maintained releases, Pharo is an attractive platform to build and deploy mission critical Smalltalk applications. The license of Pharo is MIT with some original parts remaining under the Apache License. All contributors are required to sign our license agreement.

The consortium is for legal entities, if you are an individual that wants to support Pharo participate to the Pharo association.

Industrial members

Consortium Members

- Managed by Inria for now
- Who: companies, institutions, user groups
- Privileged access to the core development team
- Influence priorities of the next development
- Engineering support time
- Job posts
- Training/Conferences special prices

Fees

■ Gold 4000

 4 days of engineering time + multiple job descriptions for job dashboard + diamond sponsor.

■ Silver 2000

 two days of engineering time + one job description + diamond sponsor.

■ Bronze 1000

one day of engineering time + diamond sponsor.

FY

- Started discussions with INRIA in 2009
- Inria put 4 years of salary (Igor, Esteban)
- RMoD put money on the table
- Join!

Consortium FAQ

- Pharo will stay free!
- No negative impact: just a better Pharo
- Companies participate to the consortium
- Individuals participate to the association

Pharo User Association

This is the Pharo users association site

Pharo is a clean, innovative, open-source Smalltalkinspired environment.

About

Pharo User Association

- Managed by the Pharo Association
- Individuals
 - Premium (99 Euros)
 - Normal (40 Euros)
- Join and participate what we do!

We all have different agendas but why not getting an impact?

Write/Participate to a book chapter!

Get exposure!

Blog, tweet...

Each time Pharo gets better we all get better and cooler;)

Every single contribution is important

You can get an impact ...

even with 30 min a week

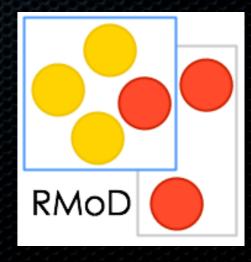

Thanks RMoDers

- Thank all the contributors, we know who you are:)
- Thanks Inria for the continuous support
