Software Development with LLMs in Glamorous Toolkit

veit.heller@feenk.com

Agenda

- 1.** Working with *OpenAI* and *Ollama* in GT
- 2.** The actual workbench
- 3.** A case study

gt4openai: working with OpenAI

`gt4openai` is a project to interact with [OpenAI](#) from within Glamorous Toolkit.

▶ 1 explicit reference

gt4ollama

[[What is gt4ollama?]] What is gt4ollama? ▶

[Working with the API client ▶](#)

[Modelling a chat ▶](#)

[Working with a tutor ▶](#)

[Embeddings ▶](#)

[Generating embeddings ▶](#)

[Using modelfiles ▶](#)

Case studies

A set of case studies to showcase how to work with the package in real world scenarios.
